[THIS OUTLINE CAN BE CUSTOMIZED TO THE UNIQUE NEEDS OF EACH CUSTOMER SITE/EQUIPMENT]

- ✓ Introduction, outline, and provision for practice operation
- ✓ Benefits of training
- ✓ Training vs. familiarization
- ✓ Management's role in safety and the operator's role
- ✓ Knowing your aerial lift & the importance of reading the operator's manual
- ✓ Basic components and typical control layouts
- ✓ MEWP site risk assessment
- ✓ MEWP selection
- ✓ Vehicle capacities
- ✓ The use of fall protection, as it applies to aerial work platforms
- ✓ Operation of emergency ground controls
- ✓ Ground conditions
- ✓ The "big four" safety issues including tip-over, fall, collision and electrocution
- ✓ Weather related dangers
- ✓ Pedestrian safety
- ✓ Operating in tight areas
- ✓ Basic operational issues
- ✓ Traveling rules
- ✓ Avoiding damage to the equipment and facilities
- ✓ Proper parking
- ✓ Operation on ramps
- ✓ Fueling procedures
- ✓ Personal protective equipment
- ✓ Pre-shift vehicle and job site inspections
- ✓ ANSI standard changes

Other topics are available upon request. It is your responsibility, as the employer, to provide the MEWP operator's manuals to your operators and to communicate any site-specific rules which might exist.

TRAINING PROGRAM COMPARISON:

Forklift Training Systems

Other Training Suppliers

New operator classes include a free pre-training survey to identify OSHA compliance issues and to customize our program to your specific site and MEWP's.

YES

NO

Use of real life accident investigations and near miss videos to show how dangerous MEWP's can be to operators and pedestrians.

YES

Unlikely

Provide classroom training, a written test and a hands-on evaluation for each different type of MEWP. Scissor lift, boom lifts, push around, trailer mount, etc.

YES

Most provide generic content only.

Have received factory training and are up to speed with all the new standards which went into effect in June of 2020.

YES

Many providers are not up to speed on required changes and have not had training from a major manufacturer.

Conduct training with strict pass and fail criteria, we ensure operator competence.

YES

Most pass everyone, regardless of their performance.

Records are backed up electronically. Proof of training can be emailed to you in a matter of minutes, if requested.

YES

Records are kept in a paper file, hard copies must be mailed out.

Reminders are sent out when your training is nearing suggested expiration, to help keep you in compliance.

YES

NO

PRICING & OPTIONS:

OPTION 1: NEW OPERATOR TRAINING AT YOUR SITE

This is the right class if you have new operators and need to train them according to OSHA and ANSI standards. If you have existing operators and are unsure of the quality or content of their past training, if you are missing their paperwork or if they were certified through a prior employer, this is the right option. The class includes classroom instruction, written testing and hands-on evaluations for each type of MEWP. Our instructors bring to life the realities of what can happen when MEWP's are not operated safely, operators will leave feeling much different about their role in MEWP safety.

Class size: Minimum billing of 6 operators, maximum class size is 15.

Time frame: 5-8 hours depending on the number of trainees and MEWP types.

Pricing: \$150 per trainee.

OPTION 2: RE-EVALUATION AT YOUR SITE

Our re-evaluation course is geared towards companies with operators which have already been properly trained at your company and are in need of re-evaluation. The class includes one hour of classroom instruction, a written quiz and a hands-on evaluation. Topics such as tip-overs, falls, collisions and electrocutions are covered. Our real-life accident pictures and video clips will remind your operators about the consequences of unsafe actions. It will get the attention of your experienced operators who already know how to operate safely, but may not be applying that knowledge on the job.

Class size: Minimum billing of 6 operators, maximum class size is 15

Time frame: 2-3 hours depending on number of students and equipment types

Pricing: \$110 per person

NOTE: Normal training hours are weekdays from 6AM to 6PM. Saturday and non-standard hour training are available for a \$200 per class additional flat fee. Reasonable travel charges will apply to any operator training conducted outside of Ohio.

CUSTOMER EXPERIENCES:

“We have worked with Forklift Training Systems since 2000. Over that time, they have become one of our top safety and training suppliers. They meet and exceed our needs locally here in Ohio, as well as working with all our sites across North America. We have used them to train both forklift and MEWP operators and trainers, they are the best of the best at what they do.”

- *The Scotts Company*

“Forklift Training Systems provides our employees with interesting and interactive training, because they have taken the time to get to know our site, our people and our equipment. They have also partnered with us to improve our mobile equipment/pedestrian safety and have made a number of suggestions over the years which have been valuable to us as a company. We know we can depend on them for great training and solid/factual advice in their area of expertise.”

- *Rolls Royce*

“It’s really that simple with these guys, we firm up a date/time and they are here, rain or shine. Their trainers take so much care with our certifications it’s almost like they’re doing it for their personal gratification.”

- *SumiRiko, Ohio Inc*

“Forklift Training Systems were very patient and professional in working with us and our difficult schedule. They were on time and presented the course very well. I look forward to working with them in the future.”

- *ABM Facility Services, JP Morgan Chase*
